#### **Features**

Two vertical scores, 3/8-in wide and deep, simulate raked joints, and visually divide the face into three sections. The effect is a grid that can effectively add accent or interest to the elevation.

## **Availability**

**Special order only.** Configurations such as open ends and open end bond beams may be available. May be limited in plant location. Units can be made in any of our integral color options.

### **Standards**

Concrete masonry units manufactured by Angelus Block Co., Inc. meet ASTM C90 Standard Specification for Loadbearing Concrete Masonry Units.

#### Fire Rating

Solid grouted walls 8-in wide and greater are rated at 4 hours, per CBC Table 721.1(2). For partially grouted walls, depending on the specified weight classification, 8-inch wide units are 1 hour to 2 hours, and 12-inch wide units are 2 hours to 3 hours.

#### **Sustainable Features**

- This product is included in Type III Environmental Product
  Declarations for Angelus Block Concrete Masonry Units, specific
  to location and mix designs, and in one of six Health Product
  Declarations, as applicable for its weight classification.
- Contributes to green rating systems calculations, including Regional Materials, EPDs, and Material Ingredient Reporting.
- Angelus Block CMU help facilitate and support many more strategies and credits, including Optimize Energy Performance, Construction Waste Management, and several within Indoor Environmental Quality. Angelus Block CMU contain no VOCs.
