ForzaBrik

(for anchored use)

NOTE: ForzaBrik are blended color products. As such, individual units

will range from solid, single color to completely random blends of the base colors.

It is highly recommended to draw units from multiple pallets simultaneously to assure a good mix of colors in the wall field, and to avoid large areas of the same color.

WARNING: This product can expose you to Silica, crystalline (airborne particles of respirable size) which is know to the State of California to cause cancer. For more information, go to www.P65Warnings.ca.gov.

Features

ForzaBrik[™] offers the rich look of brick in the durable practicality of concrete masonry, and is the only product of its kind with a standardized, national color palette.

Nominal 2-inch thick veneer units in a lightweight mix can be used in adhered veneer applications. Nominal 4-inch thick units require anchored veneer installations.

Availability

Special order only. Available in eight color blends. Visit Colors & Textures at www.AngelusBlock.com.

Standards

Concrete masonry units manufactured by Angelus Block Co., Inc. meet ASTM C90 Standard Specification for Loadbearing Concrete Masonry Units.

Sustainable Features

- This product is included in Type III Environmental Product Declarations for Angelus Block Concrete Masonry Units, specific to location and mix designs, and in one of six Health Product Declarations, as applicable for its weight classification.
- Contributes to green rating systems calculations, including Regional Materials, EPDs, and Material Ingredient Reporting.
- · Angelus Block CMU help facilitate and support many more strategies and credits, including Optimize Energy Performance, Construction Waste Management, and several within Indoor Environmental Quality. Angelus Block CMU contain no VOCs.
