Features

Deep, narrow scores and a projected split face provide mass and accent with the character of inlaid stone.

These units are suitable for use in anchored veneer or composite masonry applications.

For veneer masonry: Use in anchored veneer applications per TMS 402 Chapter 12 and TMS 602.

For composite masonry: Use in multiwythe masonry per CBC and TMS 402 and TMS 602.

Availability

Special order only. Available in any of our integral color options.

Standards

Concrete masonry units manufactured by Angelus Block Co., Inc. meet ASTM C90 Standard Specification for Loadbearing Concrete Masonry Units.

Sustainable Features

- This product is included in Type III Environmental Product Declarations for Angelus Block Concrete Masonry Units, specific to location and mix designs, and in one of six *Health Product Declarations*, as applicable for its weight classification.
- Contributes to green rating systems calculations, including Regional Materials, EPDs, and Material Ingredient Reporting.
- Angelus Block CMU help facilitate and support many more strategies and credits, including Optimize Energy Performance, Construction Waste Management, and several within Indoor Environmental Quality. Angelus Block CMU contain no VOCs.

See Sustainable & Resilient Design: Angelus Block Products' Application to Rating Systems and Code for detailed information. A copy is available from your representative, or as a download at www.AngelusBlock.com.

Variation in aggregate exposure is inherent in all split face products.

Orange, CA

Fontana, CA

Gardena, CA

Aggregate exposure in all deep scored and fluted units will vary across the unit face, but is not discernable when viewing the entire field.
