4-Score 2x1
Running Bond

Features

Equally spaced projections and 1-inch deep scores create a ribbed effect.

Add relief and depth of texture to fields and bands; create visual anchoring to lower elevations or striking accent to top of walls.

Availability

Special order only. Configurations such as open ends and open end bond beams may be available. Locations and color availability of the 12-inch width may be limited; please consult your representative.

Standards

Concrete masonry units manufactured by Angelus Block Co., Inc. meet ASTM C90 Standard Specification for Loadbearing Concrete Masonry Units.

Fire Rating

Solid grouted walls 8-in wide and greater are rated at 4 hours, per CBC Table 721.1(2). For partially grouted walls, depending on the specified weight classification, 8-inch wide units are 1 hour to 2 hours, and 12-inch wide units are 2 hours to 3 hours.

Sustainable Features

- This product is included in *Environmental Product Declaration for Angelus Block Concrete Masonry Units*, a Type III EPD, and in one of six *Health Product Declarations*, as applicable for its weight classification.
- Contributes to green rating systems calculations, including Regional Materials, EPDs, and Material Ingredient Reporting.
- Angelus Block CMU help facilitate and support many more strategies and credits, including Optimize Energy Performance, Construction Waste Management, and several within Indoor Environmental Quality. Angelus Block CMU contain no VOCs.

See *Sustainable Design & Angelus Block Products* for detailed information. A copy is available from your representative, or as a download at www.AngelusBlock.com.

- Angelus Block Take-Back Program: Facilities and procedures for receiving and repurposing concrete masonry waste into recycled aggregates.
