**ANGELUS BLOCK
RECLAIMED MATERIAL TAKE-BACK PROGRAM**

Angelus Block is committed to providing materials and services in support of sustainable design and practices. Recycled content is utilized in the majority of our concrete masonry and hardscape products, and we have invested in four crushing facilities to repurpose recovered concrete masonry units and paving stones as recycled aggregate.

We welcome the intake of clean unused and waste concrete block and paving stone materials at any one of our crushing facilities located at or adjacent to our facilities in Sun Valley (Tuxford), Orange, Oxnard, and Rialto.

Should additional information or assistance be helpful, please contact your representative or email info@angelusblock.com.
